

HELLO FROM THE CAMPAIGN!

**KARA
EASTMAN**
CONGRESS

I am so proud to launch our second newsletter. As you all know, I am committed to transparency from and accessibility to our government officials. It is my hope that this newsletter gives you a sense of the work we are doing and the progress of our campaign.

This campaign has always been about the voters in Nebraska. We are focused every day on getting rid of Don Bacon, who always puts party before country.

We need a local candidate to unify the party to win here in November. I am that candidate because I spend zero time attacking other Democrats and all of my time listening to voters and their concerns. They want someone to represent them in DC who has the political courage to fight for their issues and continue to listen to them at home.

We are doing politics differently. When you send me to Congress, I will make the most use of my time to listen to you and be active in supporting all of our communities. It won't be about photo-ops - but really employing the tools of my office to improve everyone's lives.

Our team is excited. We are working hard, have so MANY people attending our events, have knocked thousands of doors, and are honored to have grassroots support from over 21,000 donations.

If you support this vision of unity, progress, and real democracy, join me.

Yours truly, Kara

FIELD NOTES

We've been knocking doors at just about every corner of the district and people of all spectrums are excited for Kara! Recently, an independent voter in Ralston opened up his door to us and he said that he is tired of all the fighting in Washington and that he wishes that Congress would come together to pass badly needed universal health care reform.

Hello!

My name is Jaden and I am a Field Organizer on the campaign. One of the most exciting parts of the campaign is getting the opportunity to speak with voters about the real issues that matter to them. So far I've had many interesting conversations with voters all over the district. One of the more common things that people are saying is that we must get rid of the current administration. The only way we'll flip CD-2 is through building a coalition of working people, black and brown people, the LGBTQIA+ community, and other marginalized communities. Join our movement by knocking doors, making some phone calls, or by sending a few dollars towards our grassroots campaign at eastmanforcongress.com.

In Solidarity, Jaden.

THE CAMPAIGN SO FAR...
